WHY DOES PRESIDENT BIDEN HATE HIS COUNTRY SO?

I hear all this talk about Critical Race Theory. People are fighting about it because they want to put it in schools everywhere.

I looked into this and found out that President Biden is behind it. He refused to let a commission proceed that wanted to teach the truth about American history. Instead, he wants a new version called Project 1619 to be taught. And he wants this Critical Race Theory to be part of every subject I study. My question is why?

I looked up Project 1619 on the Internet. Its authors aren't even historians. They write for the New York Times which tells all kinds of fibs. They don't even use footnotes. They made up a bunch of stories I hear to make white people racists. Oppressors of African Americans. They say white people suffer from a disease called "white privilege." And they say these things because the first black men landed in America in 1619 and white men made them slaves.

These authors are pretty dense to think that. White men didn't invent slavery and slavery started in Latin America a good hundred years before 1619. For that matter slavery has been going on for thousands of years. Just about every country has practised it, including all of the minority races that the authors say are oppressed. Today actually there are some 40 million slaves and most of them live in Africa. There one race buys and sells its own people. But surely President Biden knows that. So why does he want us to learn lies?

The president must also know that 1619 lies about a bunch of other things too. They say our whole history was built on the backs of African Americans. But only in the South where slaves were needed to work the field of Southern Democrat plantation owners. In fact, many of the thousands of freed slaves owned slaves. Native Americans owned them too. And they weren't all black? There were white slaves too, even before Africans came to America. But most of American prosperity came from inventions made in the North where there weren't any slaves. Doesn't President Biden know that?

The 1619 Project also says that the Revolutionary War was fought because the founding fathers were afraid the British were going to stop the Atlantic slave trade. Maybe the authors are not smart enough to know the truth, but President Biden must. Doesn't he know that white people started protesting slavery way back around 1660? Doesn't he know that the Declaration of Independence that started the war said nothing about slavery? Doesn't he know that the founding fathers didn't abolish slavery in the Constitution because they were scared Southern Democrats wouldn't agree to join the union without slaves to work their fields? Doesn't President Biden know all that?

He has lived in Washington D.C for 50 years. He has been part of the government all that time. So he should know American history at least as much as me. And if he does, why does he still want to teach young people like me lies about our country to divide us as a people? It must be because President Biden hates his country.
